Quick Guide

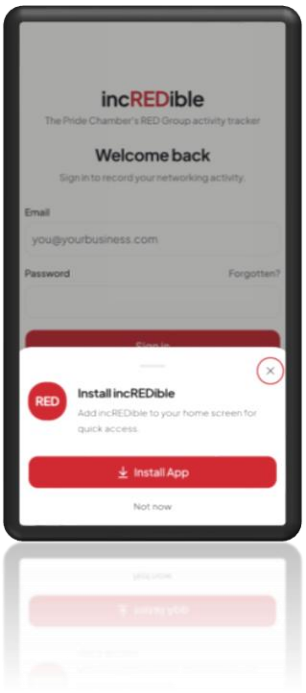

First time?

Scan:

Or type into your browser:

redgroup.app

DOWNLOAD TO YOUR PHONE:

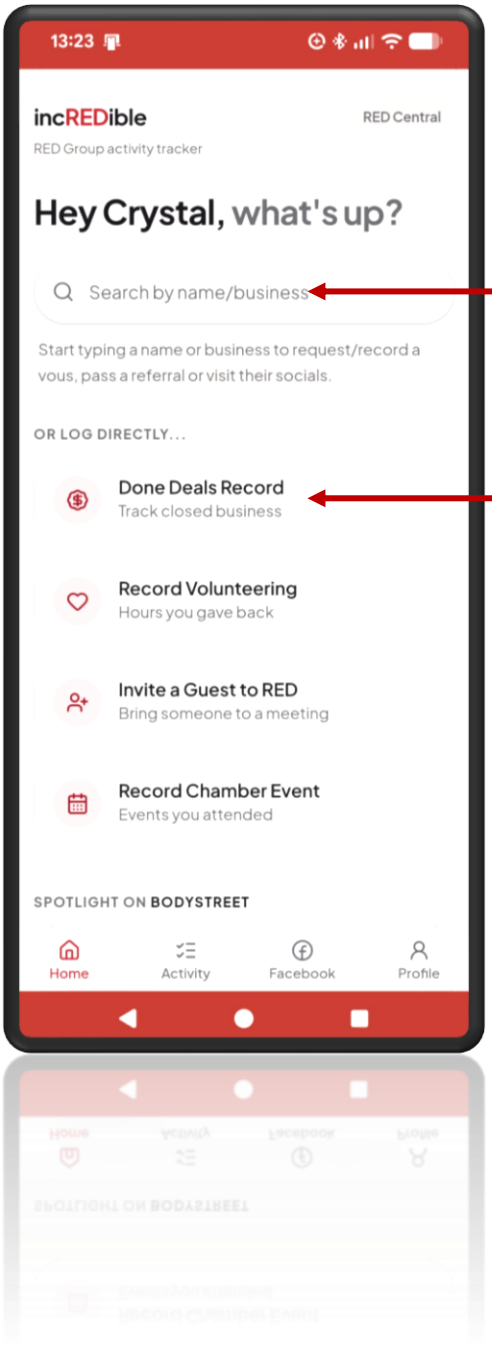

Follow the on-screen guide to add the App to your device home screen, and log in.

Your first time password was provided to you by your RED Leadership Team when they created your account. Check with them if you're unsure!

GET PERSONAL:

Tap PROFILE (bottom right) to:

- Add your avatar photo
- Update your business name and category
- Confirm pronouns
- Add/edit email/phone
- Add social media links
- Enroll your device for face/touch ID

Use the **search box** on the homepage to search for a member or business to:

- Request a new Vous
- Log a Vous
- Pass a referral
- Check that person's shared contact details and socials

Use the **quick links** on the homepage to:

- Record Done Deals
- Record Volunteering
- Invite a Guest to RED
- Record a Chamber event you attended

REMINDERS:

- The **My Activity** thread will default to show activity you've logged since the last meeting of your RED Group. This is so that you can easily refer to your recent "pots of gold". You can update the filter to show activity from any other date period.

- After a **Vous**, you *both* need to log it.

- If you have subscription-based **Done Deals**, remember to keep them updated (in case of a subscription ending, or a price change).

- Also, subscription-based Done Deals will not carry over from the previous process, so please manually add them prior to the beginning of 2027.
